

Spiral Damper
ADSS Hardware

The Spiral Damper reduce the vibrations ADSS optical fiber cables, wires and cables guard.

- Dampens the dynamic forces on the grip length by its helical design.
- Answer all the resonance frequencies;
- Efficiency at high frequencies;
- Manual and quick installation,
- Lightweight
- Polymeric, high impact PVC

The damper devices are designed to reduce vibrations.

Important complement to withholding and suspension of overhead power lines telecommunications and energy.

P/N°	Diameter Range Cable ADSS (mm)		Length Maximum (mm)	Mass Approx. (kg)
	Minimum	Maximum		
TC-HDP-0001	6,35	8,29	1.244	0,28
TC-HDP-0002	8,30	11,72	1.330	0,31
TC-HDP-0003	11,73	14,31	1.380	0,33
TC-HDP-0004	14,32	19,30	1.750	0,95
